Sanitized Copy Approved for Release 2010/05/17 : CIA-RDP89-00244R001002480005-7

November 12, 1985

Centex Construction Company, Inc.  
2947 Galloway Road  
P. O. Box 427  
Merrifield, Virginia 22116

**Subject:** GS-11B-19066, Bid Package No. 2, Headquarters Building,  
CIA Headquarters Expansion, Langley, Virginia, Lighting  
Fixtures, File A5-16500

Gentlemen:

Reference is made to your letter of November 7, 1985 regarding the ongoing difference in interpretation of the contract requirements for certain lighting fixtures in connection with the subject project.

Your room-by-room, 5 page take-off previously hand delivered to this office by your electrical subcontractor, John Miller Electric Company, has been reviewed.

A copy of our take-off as made by our Mr. Sam Bryson is transmitted herewith for your review and reaction.

As we had previously discussed, our take-off has been made based on our interpretation of the contract requirements. We considered the first light symbol used in a given space as being applicable and typical of subsequent fixtures. We considered the space use, where obvious, as a factor in determining the appropriate fixture. In general, we are comfortable with our take-off and we believe it to be the correct reading of the contract requirement.

We now believe it is up to you to review our take-off and accept it for purposes of fixture type and count, order the fixtures and conclude this matter, or take issue with all or any part of the above.

Sincerely,

Arthur J. Carlucci  
Project Manager  
Headquarters Expansion Project
